NEW HORIZONS NEW HOME...

On August 28, 1980 most of the elementary, junior high and high school students in Phoenix started back to school. For most of them it was the same old grind, same teachers, same courses, and same school.

For all of us at Horizon High school it wasn't the same, not any of it. Our school was brand new and the teachers came from all over, but the biggest change was in the people. They came from everywhere. People who had gone to school in one place since childhood suddenly found themselves in a new school with new friends. But no matter what the situation, the adjustment was difficult for everyone.

Aside from all the problems and adjustments that have faced us this year so far, we can always be sure of one thing. Horizon is our school. All of us who come from all over, this is our school. We make H.H.S. what it is. We are the spirit and we are the people. Through our halls walk the most outstanding students in the world. We solve the problems, we make the adjustments and we will continue to do these as we're reaching our New Horizons in our New Home.

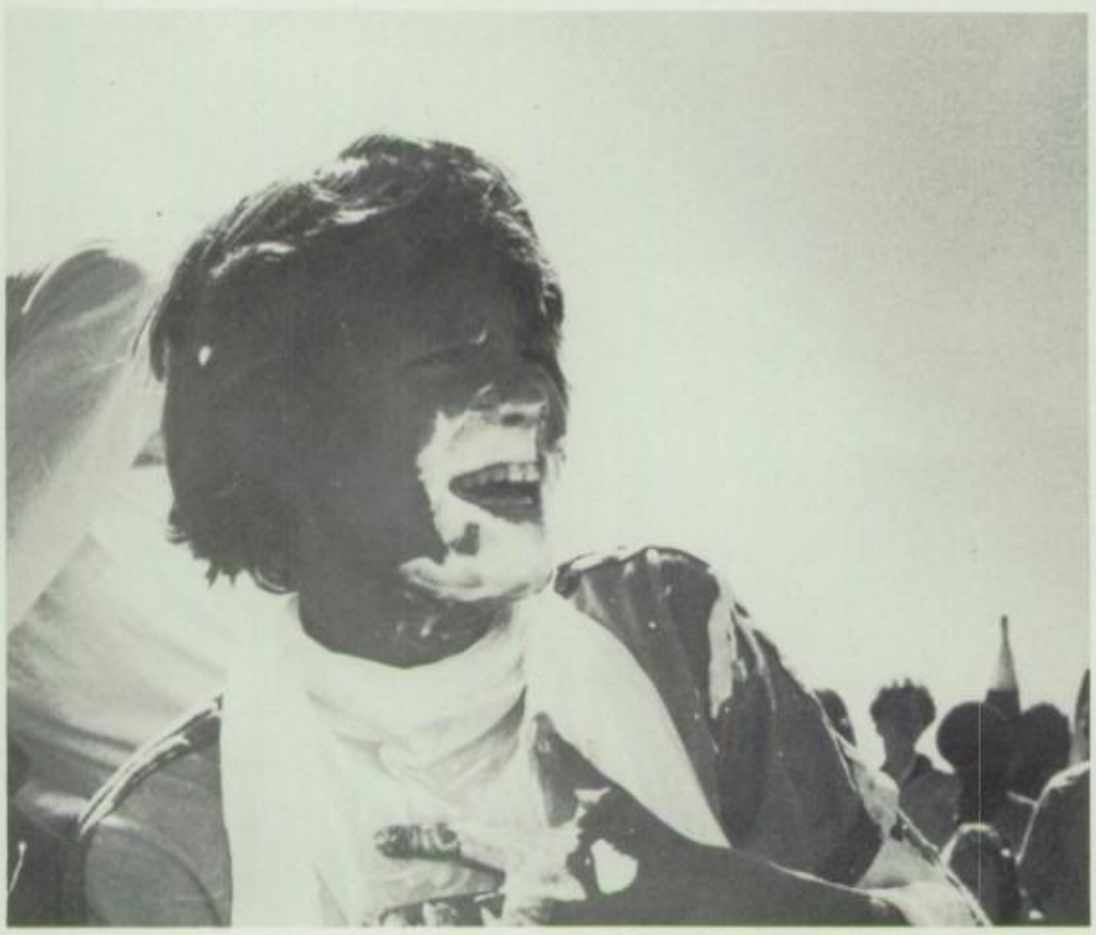
STUDENT LIFE

NEW HAPPENIGS



NEWCOMING

Like many first year schools, Horizon was faced with many problems along with the fantastic things that come with being new.

Many students expected one of the main problems to be the fact that there were no graduates to come back to a Homecoming.

Well, they were proved to be wrong. The solution to this was quite simple. The students of Horizon High School were welcomed with a New Coming.

The spectacular events which took place, livened some of the students and gave a little more Husky Spirit and Pride to the atmosphere.

An assembly held the week of New Coming, kicked off events with scoring towards the Class of the year contest followed by performances and skits done by the Pom and Cheer line and many teams were announced.

To top off a great week, the Husky Varsity football team won their first victory against North High. The score was 13 to 0.

Frosh President, Paul Bryant speaks a assembly.

Saturday nights dance was the final aray of excitment for a memorable week. The Royalty chosen was voted on by fellow classmates and quite deservingly handed to the best man and woman.

A week such as this, will be remembered for quite some time, and all who participated in any way should feel as though they accomplished much more than what was expected.

When the years to follow run as nicely as this did, we will have proved that the Horizon Huskies are #1!

Halloween in Husky Style

No matter how old you get, you never get too old to enjoy the festivities on October 31, Halloween!

Students at Horizon dressed up the day before Halloween as part of the class of the year competition. Lurking around the halls were everything from Mr. and Mrs. Dracula to Punk Rockers with purple hair. There was even one Junior who dressed as a hamburger.

Juniors won the contest by having more people dressed up than the other two classes. Sophomores lead a close second and Freshman, though they tried, trailed along at last place. Oh well Frosh, maybe next year!

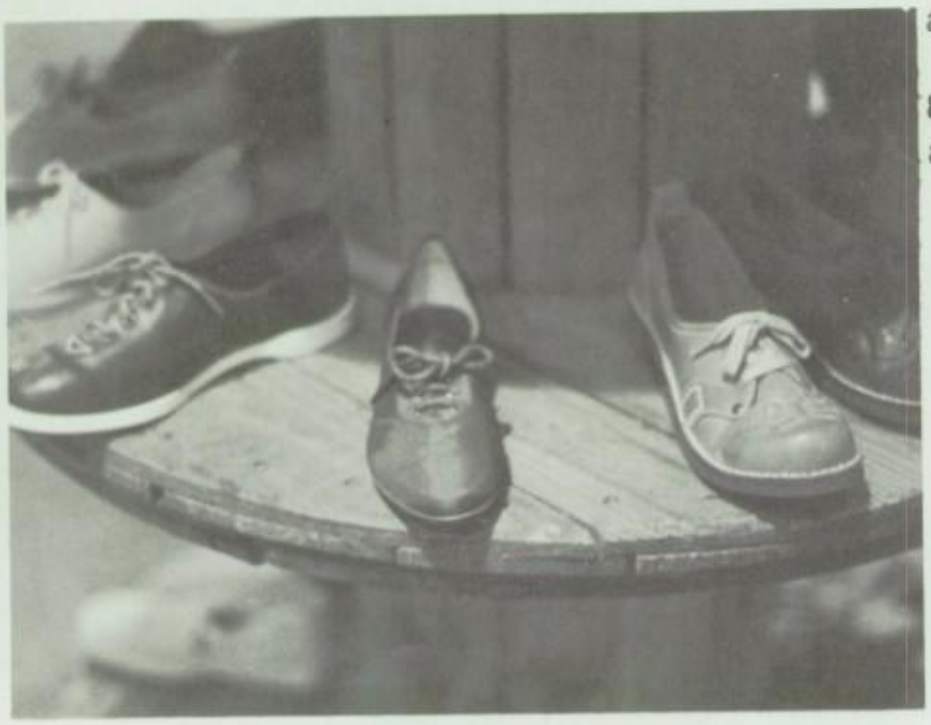
FADS AND FASHIONS



Thanks to the success of the movie "Urban Cowboy," western apparel is on the rise. Boots, hats, fringe jackets can be found in the finest high fashion salons.

Also popular are warm pastels and bazzar punk colors. Pink sweaters with lace collars and beige prep slacks are basically what you see when you enter any high school classroom. Some bolder students dress in the outlandish style of Punk. Bright purple crayons (shoes) along with red, yellow, green and other assorted colors of the rainbow are favorites in many stores.

Western, Prep, Punk and pastels, these are the styles of 1980-81. Never to be out done, Horizon looks to the changing scene and keeps current to the newest Fads and Fashions.

Thanks to Casual Corner for letting us photograph their displays.

What Was Hot in 1980

o's the best dressed? Who made the most money? What song sold the most copies? Every year it seems that some-has the answers to these questions and others like them.

ne of these answers are opinion and others are based on facts. Most of these answer lists are an annual account and leased as one year ends and another begins.

eryone likes reading these in fun even if they don't agree with them. We at the Skyline Staff have taken some of these nd published them in our book. All of our information came from either *Rolling Stone* or *US* magazines. We hope njoy reading them.

I Love the Night Life

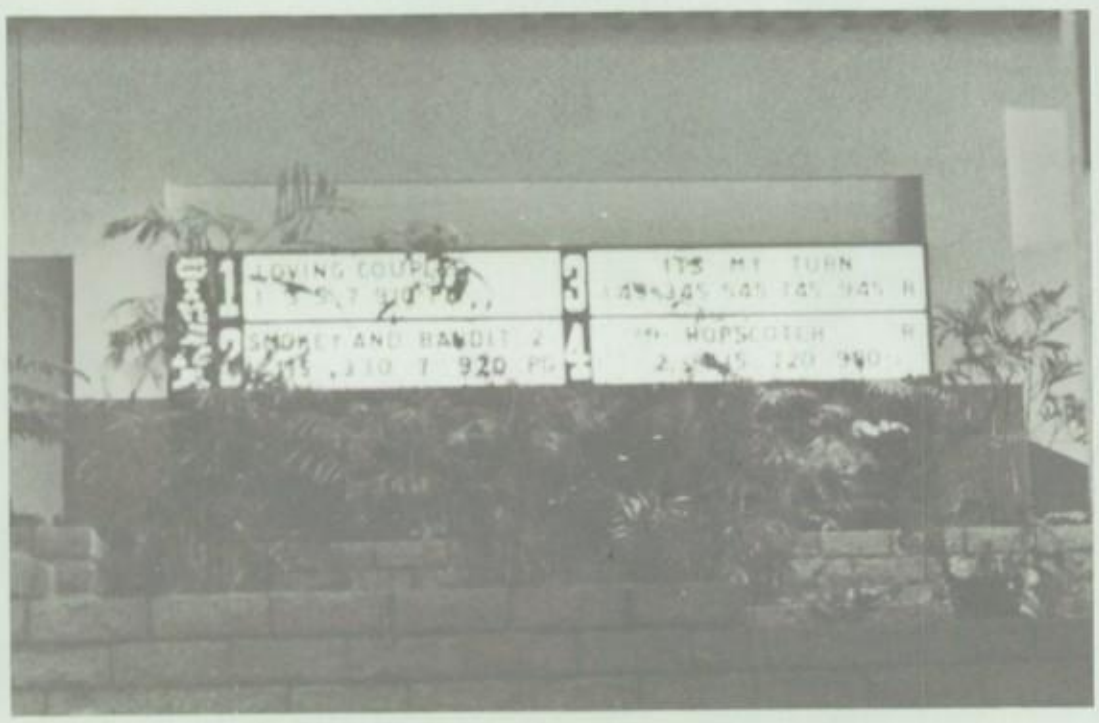
Many a Horizoner can be found at Sammy B's on Friday and Saturday nights.

Kim Norling, Courtney Young, Susan Darroch, and Shawna White at Peter Piper Pizza after a football game.

The Local hang-out and everybody's favorite!

Bonni Glass, Stacey Taft, Jackie Zaccarie, Celeste Amato, Julie Szabo and Dean Benigno at a costume Party.

Paradise Valley Mall offers a lot of evening entertainment under one roof.



Even at $4.00 a person, many students still attend the cinema.

Now Stacey, you know you shouldn't flirt with older men.

Okay guys, how much would you be willing to spend on these lovlies?

"What are we going to do?!!"

Now how many times have we asked ourselves that on a Friday and Saturday night? Should we go roller skating? No, we did that last week. Should we go the the pit and build a fire? Maybe. How about if we go to Jack-in-the-Box and see who's there, maybe someone will know what's going on. OK, sounds good.

You would think that in a big metropolis like Phoenix, finding something to do would not be hard. Well it is. I think everyone reaches a point where they really don't want to see another movie, gas costs too much to cruise Central, it's too cold to go out into the desert and nobody is having a party. So what do you do? Hang out. Where? Jack-in-the-Box, Peter Piper Pizza, McDonalds or wherever you can find. It may not be a lot of fun, but I love the night life!

Not everyone at Horizon has a job, and for that matter not everyone wants one. A lot of students are involved in school activities and are not able to hold jobs. Most students who have jobs, work for the money, others do it to pass time or because their parents want them to. Finding a job when you're 16 or 17 is difficult, but if you're younger it's nearly impossible!

The Music in Our Life

Sound tracks did very well in 1980.

New wave groups like Blondie did very well this year.

Music is as American as apple pie, baseball and mom. Whether it's Country, Soul, Disco or Rock and Roll, everyone has a favorite. Music has a big part in the way we dress and the way we behave. Every year billions of dollars are spent on concert tickets, albums and stereos. With all that, it's no doubt that the music industry is one of the biggest industries today.

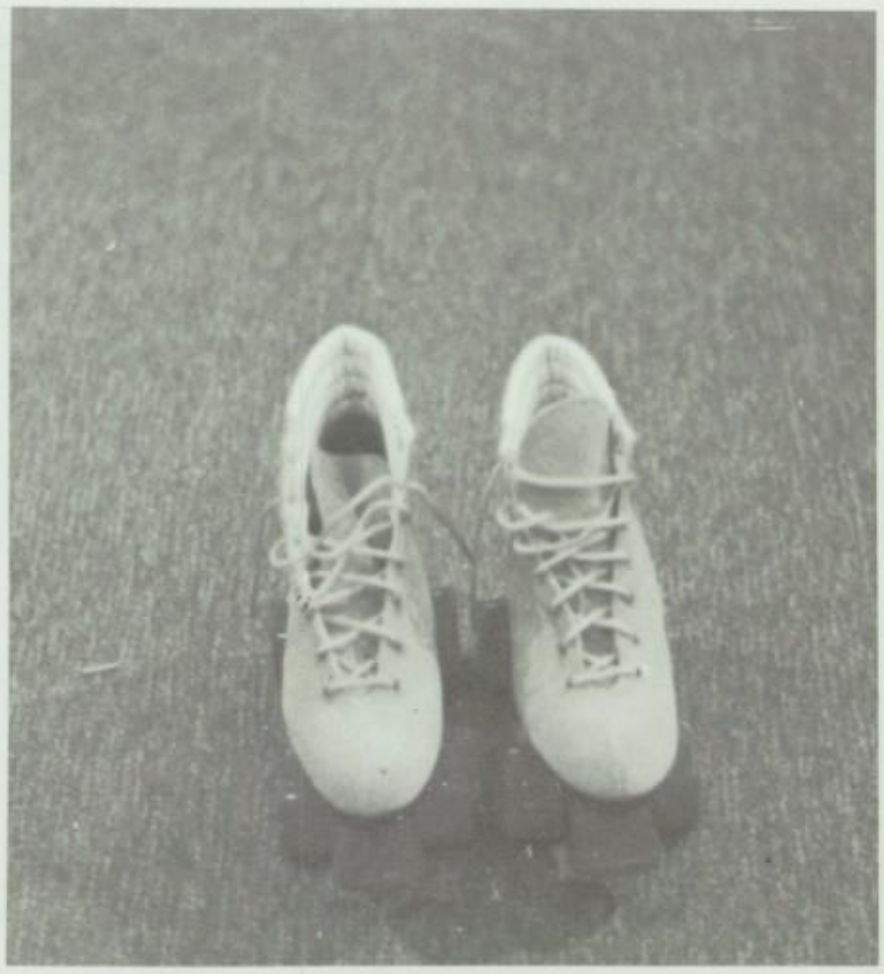
Everybody likes different types of music from Patt Benatar to AC/DC and Blackfoot.

Albums and Group aren't the only thing important when you're talking abut music, the equipment plays a big part.

All the music world mourned at the death of John Lennon in December, 1980.

Hobbies

In the summer, Tracy Hanley likes to swim.



Roller skating is a favorite from coast to coast.

Some hobbies take real talent, the kind of talent the people in the Band "Image" display.

Pinball wizards like to hang out at Superfun in the Paradise Valley Mall.

Skiing is definitely a favorite among Horizon Students.

What do *you* do in your spare time? Sit and watch television? Many students have hobbies. A hobbie doesn't have to be organized, it's just something you like to do. Swimming is a hobbie. So is roller skating, horseback riding and monopoly. What ever your hobbie, whatever you like to do, it's part of your student life.

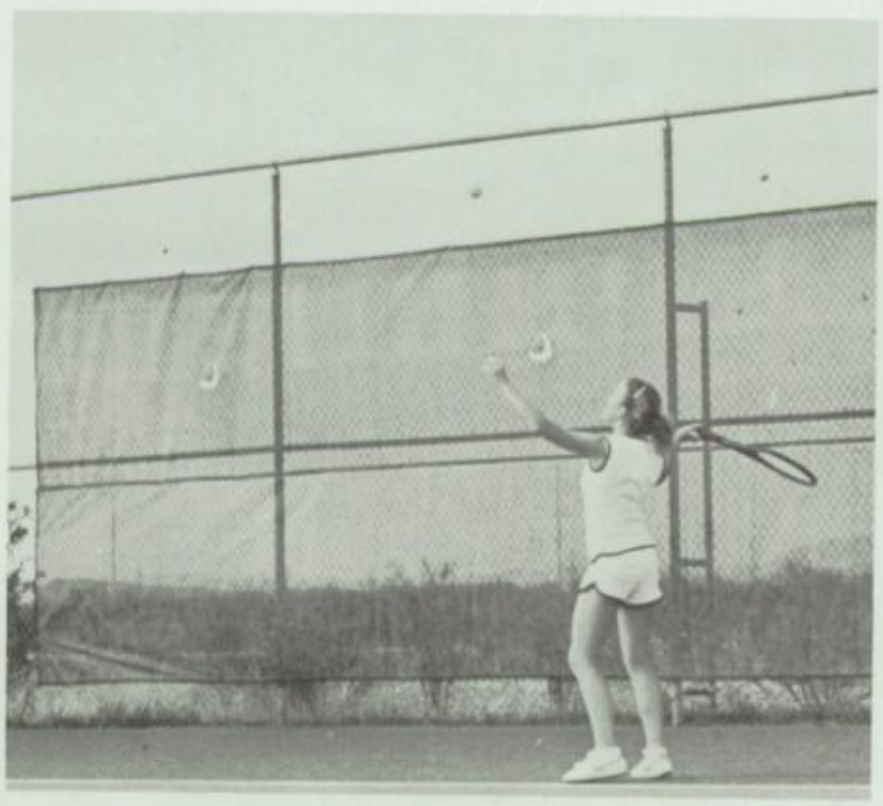
physical fitness

"Heeellllp . . .!!"

Jogging is an excellent way of keeping physically fit.

Playing football at lunch will help keep a body in shape.

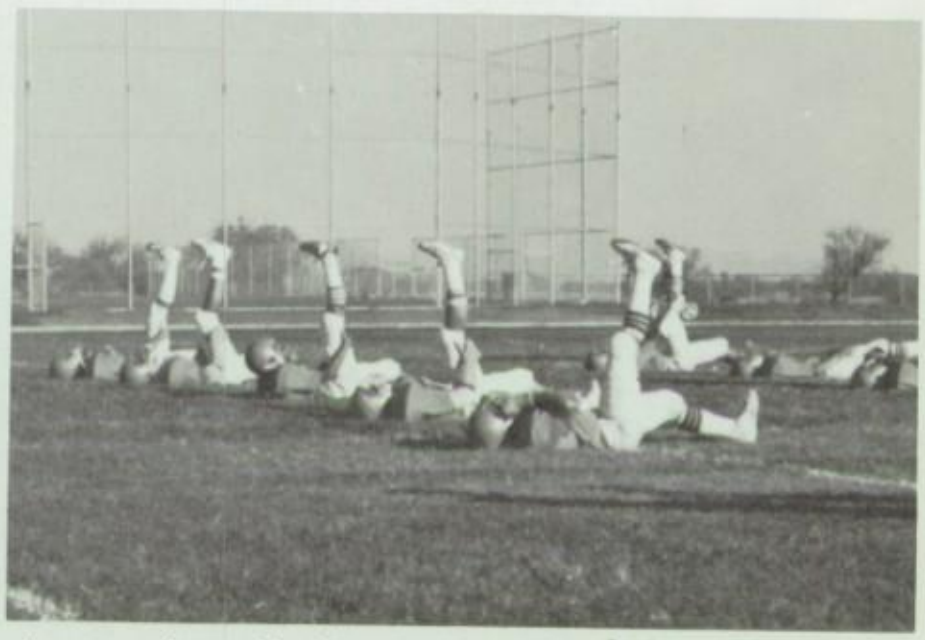
Look what floated up from the bottom of the river, it's Debi Luciano!



Tennis is always good exercise

"Um . . . Yeah, I'm a stud."

Physical fitness is a part of most American lives. To some people physical fitness is jogging five miles before school, to others it's walking across the room to change the channel on the television set. Whatever you do to keep in shape, we probably covered it.



Some people would rather sit and watch others keep physically fit.

COUPLES

As you read this probably most of these couples are no longer items, sad but true these are the hard core facts.

"Couples" doesn't necessarily mean a boyfriend and girlfriend relationship, you could have a couple of friends, a couple of enemies or a couple of fools, like the people who signed up for this yearbook class. All kidding aside, student relationships and friendships are part of your high school years and that's why we're featuring them in your Student Life!

what's your beef?

Where do you think the state of the economy is going to?

"I feel the state of the economy has to get better next year because it can't get any worse. If it does get worse, we're in big trouble," says Martin Chrisbacher.

Does the state of the economy effect your lifestyle?

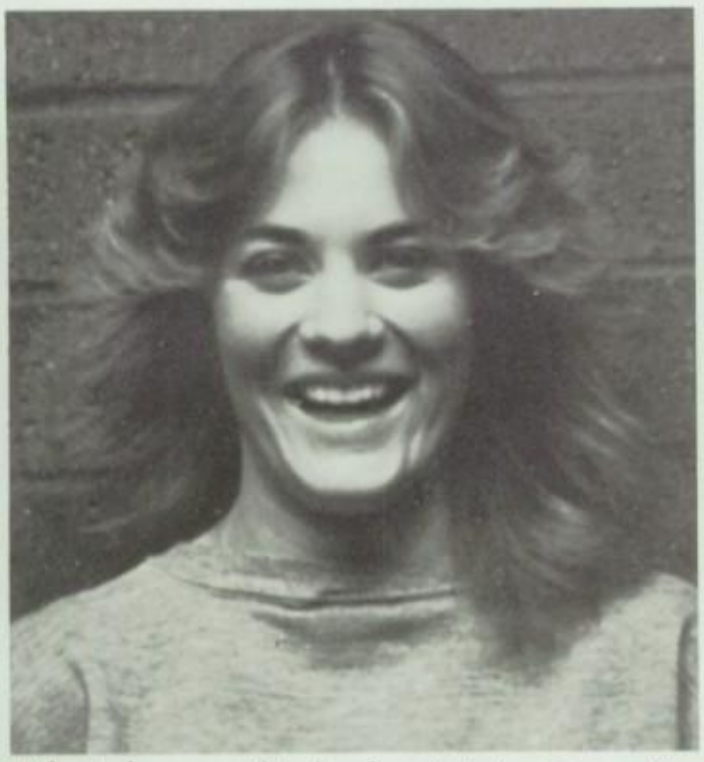
"Yes, the economy has effected my lifestyle. I can't afford to do anything anymore. Although teachers are very well paid (Ha! Ha!), I need to find a good job in the summer to make ends meet, says Coach Pickering.

What's your opinion on Nuclear energy?

"I think Nuclear energy is dangerous because the radio activity takes a couple hundred years to die down," says Ken Burgard.

Do you think the hostage situation should have been handled differently?

"I think that they let the hostage situation get out of hand. We should have gone in to Iran right away and freed our people. I also don't feel we should have given in to any of their demands, says Debi Luciano.



What do you think about detention after three tardies?

"I think that the 'Three Tardy Detention System' proved to be a very successful system for Horizon students this year. I cannot blame the teachers who were upset at the beginning of the year because classes were starting 10 to 15 minutes late. This was disrupting the valuable learning time of the student," says Christy Johnson.

What do you think about closed campus?

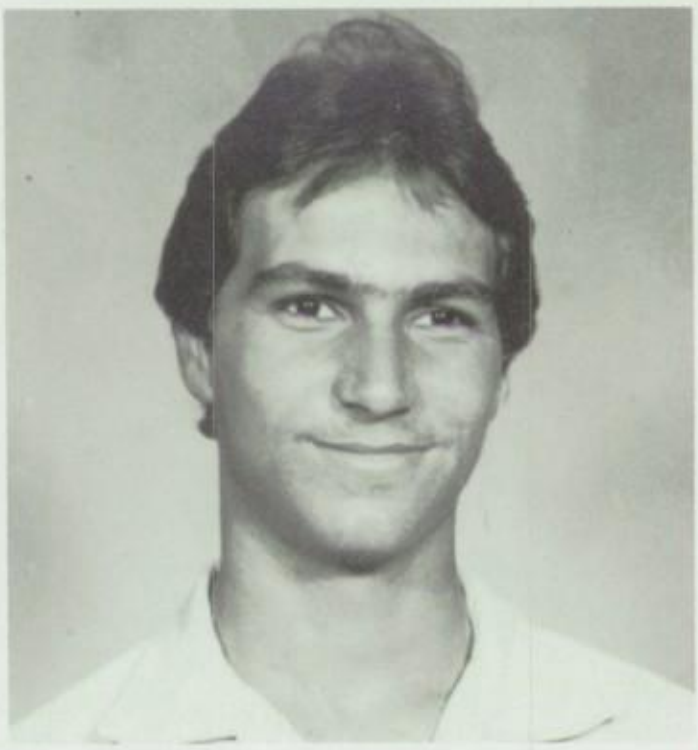
"It really is stupid," says Marilee Waldrop, "I think that we should at least be allowed lunch passes. With lunch passes our parents could sign them and be responsible for anything that might happen to us when we're off campus. If we at least had decent lunches available here at Horizon, so many people wouldn't want to go off campus!!"

What do you think of the new $2.50 an hour minimum wage for teenagers?

"I think that the government should keep the minimum wage the same and just raise it for adults. Many students have to buy their own clothes, school books, cars, food, etc.," says Karen Johnson.

What's your opinion on the new gas prices?

"I think the higher gas prices are good because when you run out of gas with a good looking girl, you have a good excuse," says Steve Millstein.



What do you think of Soviet invasion of Afganistan?

"The Soviet Union already has enough waste land, why do they need Afganistan? Just to run another country. It really stinks!," said Eddie Warner.

Akadimics

What is the reason for being at school? Believe it or not, you are not at Horizon to socialize, play sports, or even to waste time. You are here to learn.

Academics is the reason for the classes offered at Horizon. An average perosn will spend seven hours a day, one hundred and eighty days a year for twelve years of their life in school. More time will be spent in classes than in any job a person could ever hold. So cheer up, High School is almost over!

Yearbook

The Yearbook staff at Horizon this year had a difficult start at first but we finally go it into gear. Creating a book with 160 pages isn't an easy job for four girls. The work put into this book took a lot more time than just an hour a day during class. During deadline time we were in the journalism room more than we were at class or at home.

Although we all have put a lot of hours into this book we have really enjoyed it. We all hope that you enjoy it too.

This year's Journalism class had a great experience of what could be called "on the job training." With Ms. Harvey as the ring leader they worked directly on the Newspaper and did quite a nice job of it.

Mix-ups with Photographers and other things were quite common for getting both yearbook and Newspaper gears cranking smooth but it turned out to be a fun year for everyone involved. Next year should be exciting for all who get their pencils to paper, taking part on the Newspaper and Journalism Staffs.

Members of the club attended a CDI Conference in October and sent two representatives to a conference in November.

Fund raisers this year included a cheese and sausage sale, hot dog sale and tupperware sale, among other things.

THE FRENCH CLUB

The French Club was arranged in October and has had a very active membership. A bake sale was held in which members quickly sold croissants au chocolate, eclairs, petits fours, quicke, and many other goodies. During Christmas season, the club sold French Christmas stockings and croissants. They donated many to the Student Council Christmas Family. Future plans include selling French Candy for Valentine's day and a field trip to a French restaurant. They also plan to present Horizon with a gift at the end of the year. The goals of the club are to promote and enjoy French culture, to earn and donate money to the school and charities, and to enjoy la cuisine francaise!

The German Club attended the Oktoberfest festivities at the German American Club in Sunnyslope on the last Sunday of October. It was a lively time with dancing and Gemuetlichkeit. German Christmas festivities: St. Nicholas Day, December 6, and pre-Christmas observances were held during class time.

The Club has planned a pot-luck, a German Dinner, and a visit to the Alt Heidelberg bakery and Coffee shop, for some German Koffee. They will also be visiting a German restaurant.

Spanish Club

The Spanish Club was founded in October 1980, to promote interest and awareness of Hispanic culture among our members and all Horizon Students. Special interests and service activities were chosen by the members. Activities their first year included a cheese crisp sale, a shopping trip to Nogales and a Christmas activity where they caroled and distributed stocking gifts. They also sponsored a family through the Salvation Army.

Student Council

Unlike other organizations, the Student Council officers are the choice of the entire school. They are chosen by the students to represent the students. They are the voice of the Students to the Administration. This year's Student Council had a great task. Setting traditions and drawing up a constitution were first on the list of priorities.

The Council set many goals when the year began, dances, raising school spirit, and Teachers' breakfast were just a few among these goals. Promoting spirit and helping not only the school but also the community, are a constant challenge for the Council. Student Council meets one period daily although many additional hours are spent to accomplish the Council's goals. It is the Council's hope that they have developed and promoted positive traditions.

Choir

Choir sings for Student Council assembly.

Mr. Aron is doing a great job this year as director of both Band and Choir. For starting out small, the first year, they sure can fill a room with sweet sounds. The Choir performed many concerts including school assemblies and Regionals.

Horizon was blessed with a Performing Arts Dept. to please a king. The Choir and Band rooms are adjoining with offices, work rooms, practice and storage rooms. If things keep going the way they have been this year, it won't be long before Horizon is really considered to be #1 in all respects.

CHOIR

Not Shown — Stephanie Blair, Cathie Dunkle.

Band

Mr. Aron, Horizon's Band director, really had his share this year. Starting off Marching season was quite a task, but it pulled off quite well. This year the band did not go to away games. They showed off their talents at Shadow Moutain, our home field in 1980.

Concert and Symphany Bands start the beginning of December and by the end of the month, they were using the band room. More instruments had arrived and things were much more in order.

All through the year they performed in school concerts, one of which was joint with Saguaro High School Band. There were also various contests for marching and concert band including auditions for Regional, All State, Solo and Ensemble.

This was a rough year for all of us, and Horizon's Band made quite a good showing for a first year. Wait to see them march circles around P.V. next year.

Mr. Aron, Horizon Band Director, shows his pride with a smile.

Vital Signs

VITAL SIGNS in a very unique club/class. There is no other organization like it in the Paradise Valley school district. Students enrolled in this class not only learn about medical careers, but, they get what you might call on the job training. Monday thru Thursday, the class goes to the hospital and actually works there during second and third hours. They help in the pharmacy, at the receptionist desk and with other minor duties around the hospital.

This club/class is good experience for those who are considering a job in the medical field.

OOO . . . That's Cold!

Horizon's Hiking Club, under the direction of Dr. Hildebrandt, made a lot of plans for outings this year. Places that fill the agenda are: Superstition Mountains, Grand Canyon, Sedona and More. Day hikes as well as overnight stays are being planned on.

Let's go to the Rodeo! That's what all the people in Horizon's first Rodeo Club like to do. If you like bucking broncos, cowboys, lots of excitement and fun, then this could be the club for you.

Members of the club attend many fun events including the State Fair in October.

SPORTS

Pom

Horizon's high school first Pom line had a long hard summer. Early practices were essential for the perfection they would display at camp in Santa Barbara, California.

When school started the line started it's support for the football team. They attended every game both home and away, and danced enthusiastically at half time. To raise money, the pom line sold spirit shakers, bagels, miniature basketballs and other goodies.

Standing in front of hundreds of people and screaming cheers until you're blue in the face isn't all there is to being on the Horizon Cheerline. There are many hours of work put into this extra curricular activity. Starting in the summer a cheerleader puts in many hours of practice a day including 4 days at cheer camp. Last summer Horizon's cheer line won a trophy and two spirit sticks in Santa Barbara, California at competitive cheer camp. Cheer is a lot of fun for these few girls, although their major purpose is to promote spirit and provide moral support for athletes; which we all know was difficult for Horizon's first year. The Student Body at Horizon should all stand up and do an "I appreciate you!" cheer for JV and Varsity cheerlines.

The Girls' Softball teams did an outstanding job showing what the Horizon athletics will become in the future.

Varsity did exceptionally well. With a coach like Mr. Burns how could they miss. This team had a variety of players. Ranging from the pitching freshman Mike Leavitt to the junior short stop Terri Reimers. Sophomores included Stephanie Loyd, Shelly Fehrman, Kris Carpenter, Georgia VanSickel, Leanne Rambow, and Crystal Reesor. The remaining Juniors were Nancy Murney, Becky Brandt, Noreen Zaccaris, and Lynn Schuman. All did a great job to come out on top with a 12-5 winning season.

So Much She Has Done

Stacey Taft, is an outgoing, energetic and very busy person. Most of her activities are involved in school. She is our Student Body President, Yearbook Staffer, Powderpuff, Pep Club, and awarded outstanding student in the area of science. With all these activities she is still capable of maintaining a straight A average. Stacey is not only involved in school, she has other outside interests such as: tennis, target shooting, macramé, and volunteer work. Her major goal in life is to become a Doctor.

Diver

Sophomore, Wendy Keller, proves to be an extremely skillful diver. She is 14 years old and is a native Arizonian. Wendy became interested in diving because her mother had once dove and it sounded to her like a fun and challenging sport to become involved in. As a Freshman, Wendy went to State and placed 12th and her Sophomore year she made Horizon very proud by placing 4th. She has won 12 metals, 2 ribbons, and 3 trophies in her 2 years of competition diving. Wendy found out that in High School you can find out a lot about other people who enjoy the same sport that you like. Her dream for the future is to continue diving in high school and to one day be able to represent the United States in the Olympics.

Buckskin Queen

After attending a few meetings of the Arizona Buckskin Association, Sophomore, Jody Fay was crowned the Arizona Buckskin Queen for 1981.

The Arizona Buckskin Association is a group of buckskin horse owners who participate in horse shows all over the United States. Jody will be representing them in Arizona functions, including the upcoming Parade Del Sol in Scottsdale. She also will be going to all the other parades her association participates in.

Jody's future goal is to attend the world finals in the Quarter Horse Association of which she is also an active member.

Can you imagine five hours of ice skating a day since you were nine years old? Julie Eldis, a Freshman, doesn't mind. She's been actively involved in competition Ice Skating for six years. Her competition level is constantly increasing as she passes her tests in both free style and school figure skating. Julie can prove her talent by displaying the numerous awards she has accumulated. Her future plans include being in World Competition and the Olympics. Later she wants to retire to the Ice Capades, become a Pro, and put herself through Law School.

Olympics or Bust

Is Trina Leopold going to be the new Olympic star from Horizon? Well, she's sure giving it her best. Trina is Horizon's freshman super star runner. She was first influenced by her grade school P.E. teachers and really started striving in 7th grade. She has won many medals, ribbons, and awards. This year she was on the cross country team and went to state competition, where she finished with high honors. Her future plans are to attend college and keep up her running.

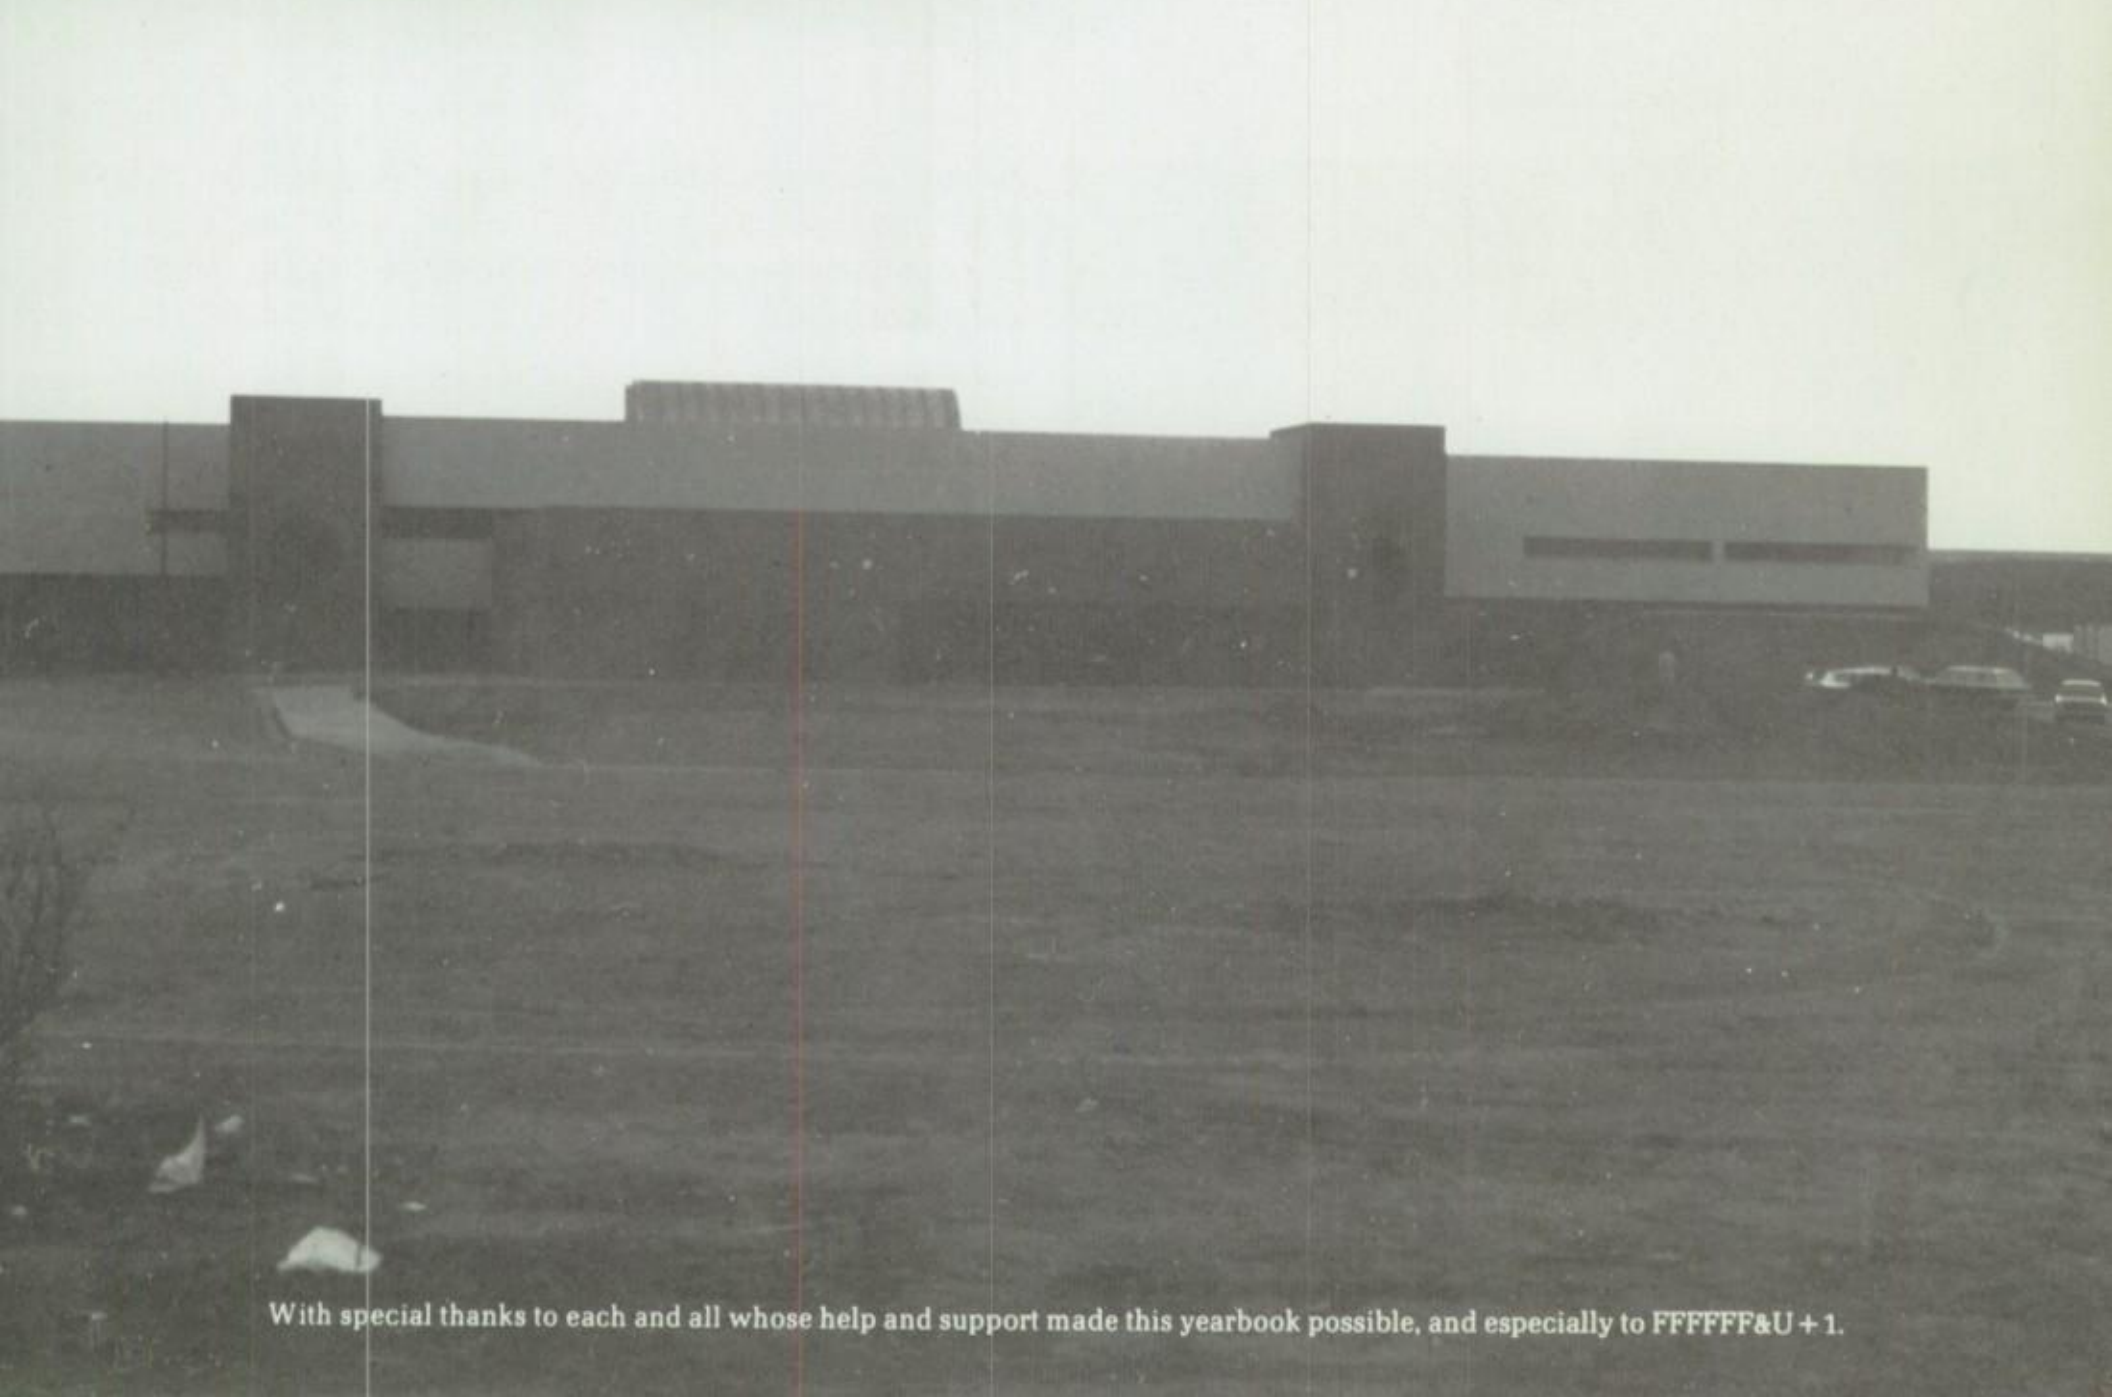
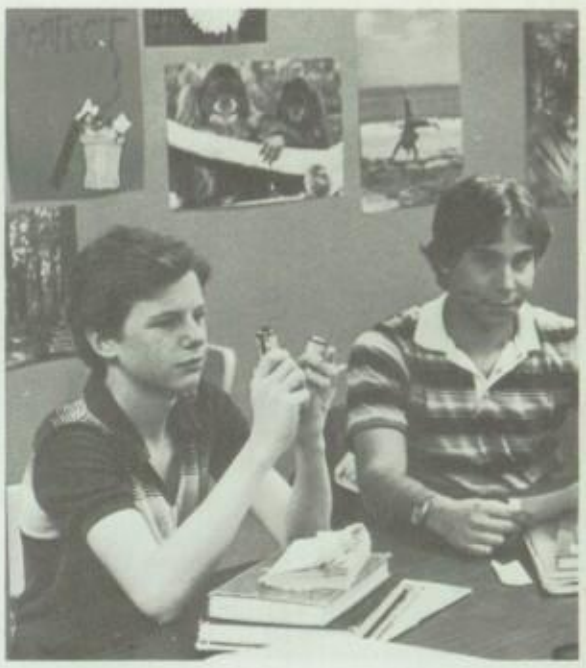
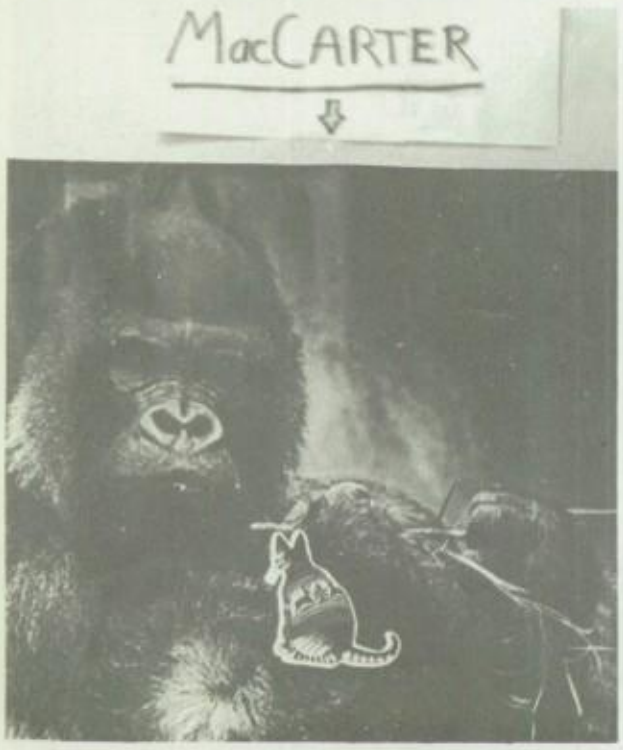
Dedication

This yearbook is lovingly and kindly dedicated to the one man that has helped to move the dream of third high school to the reality of the Horizon Huskies. This man unswervingly worked to make this the best school. The faculty, staff, and students salute Dr. James F. Gleason for his dedication with this first edition of *The Skyline*.



With special thanks to each and all whose help and support made this yearbook possible, and especially to FFFFFF&U+1.





Editors; Dana Watson, Debi Luciano, Betsy Hearn, Debi Hope and Michelle Turner. Advisor; Mr. Kellen. Secial thanks to; Mrs. Harvey, Mrs. Bennett, Mr. Chako, Staffers and photographers.
